**HELP NEEDED WITH THE EARLEY
VETERAN TREE PROJECT**

Over the next few months Earley Environmental Group will be surveying veteran trees in the Earley area. This will involve some simple measuring and recording of position, which will then be entered in a database.

A very rough description of a veteran is one that measures about 1 metre diameter or 3 metres girth, or more. Training will be provided by the Group. For more information contact either 0118 9620004 or 986 8260

If you are unable to help but know of any local trees which might qualify as a veteran, we would be pleased to hear from you.
